HOW DOES SHE MEASURE UP?

To ensure the perfect fit, these size charts provide height, weight, chest and waist measurements for girls. Use the guidelines for the most accurate measurements.

Height
Measure your child without shoes, feet together and back to the wall. Place tape measure from the floor to the top of the head.

Chest
Place tape measure under your child's arm and around the fullest part of the chest. Tape should be comfortably loose.

Waist
Measure your child in underwear. At the natural waistline, place one finger in between the tape and your child's body.
